The Samueli Initiative for Responsible Artificial Intelligence (AI) in Medicine

CALL FOR GRANTS 2023-2024

Applications for \$2000 Discussion Group Grants

The Samueli Initiative for Responsible Artificial Intelligence (AI) in Medicine aims to promote responsibility in AI-related research, development, deployment and use in medicine. Our goal is to ensure advancements are ethically guided, scientifically validated, safe and beneficial.

Discussion groups grants of up to \$2,000 are offered to Tel Aviv University faculty members. Project teams and themes should demonstrate an interdisciplinary collaborative approach, with at least two fields of study or areas of expertise (such as Psychology and Data Science, Law and Bioengineering, etc.)

Collaborators may be from non-TAU institutions but are not eligible to receive funding. The budget will be maintained by the Research Authority at TAU.

Format for discussion group grants:

1. Background and theme of discussion
2. Details about format and frequency of meetings (minimum once a month)
3. Name/s of suggested applicants for the role of group leaders (1 or 2 for each team).
4. Details about selection process for group participants.
5. Initial names of group participants (at least 5).
6. Project teams should demonstrate an interdisciplinary collaborative approach, including participants spanning at least two different fields of study or areas of expertise.
7. Budget details and justification

- Please include a letter of endorsement from Dean/ Head of school/chair of department
- Limit up to 2 pages (includes figures), font Arial or Times New Roman 11, single space. References can be beyond the 2 pages.
- Add CV of each applicant – NIH Biosketch or similar format

Priority will be given to projects proposing responsible applications of AI to improve healthcare services for populations affected by war. However, projects related to responsible AI in cancer and in public health and other Responsible AI in Medicine topics will be considered.

For any questions and application submission, write to Dr. Amir Tal.

DEADLINE: January 31, 2024
