The Samueli initiative for Responsible Artificial Intelligence (AI) in Medicine aims to promote trustworthiness, safety and responsibility in AI-based research, development and use in medicine. Our goal is to ensure advancements are ethically guided, scientifically validated, and beneficial for all in healthcare.

We are pleased to provide a research grant of up to 12,000 $ to Tel-Aviv Faculty members and 3 discussion groups grants of up to $2,000. Each faculty member can only be part of ONE grant, whether as PI or collaborator. Collaborators may be from non-TAU institutions but are not eligible to receive funding. The budget will be maintained by the Research Authority at TAU. All grants that pass eligibility rules will be reviewed competitively by an ad hoc review committee.

Preference will be given to projects related to responsible AI in Cancer and in Public Health, but other Responsible AI in Medicine topics will be considered.

**Format for research grants proposal**

- Scientific background
- Research objectives
- Methodology
- Budget justification
- Include a letter of endorsement from Dean/Head of School/Chair of Dept.

Limit up to 2 pages (includes figures), font Arial or Times New Roman 11, single space. References can be beyond the 2 pages.

Add CV of each applicant – NIH Biosketch or similar format

All applications, after passing the Grant Committee's initial evaluation for suitability, will be evaluated by external referees. The Grant Committee reserves the right to reject applications if they do not meet the criteria. Reports will be required at the end of the year of funding.

Preference will be given to projects related to responsible AI in Cancer and in Public Health, but other Responsible AI in Medicine topics will be considered.

**Applications for 2000S Discussion Group Grants**

**Format for discussion group grants:**

- Background and theme of discussion
- Details about format and frequency of meetings (minimum once a month)
- Details about selection process for group participants
- Budget details and justification

Please include letter of endorsement from Dean/Head of school/chair of department

Limit up to 2 pages (includes figures), font Arial or Times New Roman 11, single space. References can be beyond the 2 pages.
